

JOSELYN SAAVEDRA

Software Developer | AI-Assisted Development | Automation | Full Stack

Quito, Ecuador | Remote

+593 99 252 3644 | Josyts.js@gmail.com | linkedin.com/in/joselyn-saavedra-dev | github.com/Witch19

PROFESSIONAL SUMMARY

Software Developer with 2+ years of experience building scalable web applications and custom platforms for enterprise clients. Strong background in **JavaScript, TypeScript, Python, Node.js, .NET, React, and Angular**. Daily practitioner of **AI-assisted development** (Cursor, ChatGPT, Claude, GitHub Copilot) to accelerate delivery while maintaining code quality. Experienced in **process automation** with Bash scripts and CI/CD pipelines. Collaborates on product design decisions with remote international teams, writes clean documented code, and delivers high-quality solutions through code reviews, testing, and iterative improvement.

PROFESSIONAL EXPERIENCE

Vidortec / Vigatec Chile - Software Developer

October 2023 - Present | Remote (Ecuador / Chile)

- Developed scalable full-stack solutions using **JavaScript, TypeScript, Node.js**, and **.NET** for enterprise clients (Aguas Andinas, Fila).
- Implemented AI-driven productivity workflows with Cursor, ChatGPT, and Claude to speed up development, debugging, and documentation.
- Automated operational tasks with **Bash** scripts; improved resource management and deployment efficiency.
- Integrated REST APIs and external services; collaborated on product and technical design decisions.
- Ensured high-quality delivery through code reviews, automated testing (Karate, k6), and production troubleshooting.
- Managed version control and **CI/CD** pipelines with Git, GitHub, and Azure DevOps.
- Supported fintech implementations (Diners Club) with strict quality and security standards.

Advance Latam - Software Developer

June 2023 - August 2023 | Ecuador

- Built responsive web applications with **Angular** and **TypeScript**.
- Collaborated with the product team on UI improvements and iterative delivery.
- Participated in code reviews and agile ceremonies (Scrum, Jira).

SELECTED PROJECTS (GitHub)

Fruit Store eCommerce - github.com/Witch19/tienda_bnk

.NET 8, Angular, REST APIs, microservices

- Scalable eCommerce platform with microservices architecture and API integration.
- End-to-end product design from catalog flows to transaction services.

Backend Urbanizacion - github.com/Witch19/backendUrbanizacion

Python, Django, DRF, PostgreSQL, JWT

- Custom access-control platform with REST APIs, authentication, and documentation.

Pet Adoption UI - github.com/Witch19/pet-adoption-ui

React, TypeScript, Tailwind CSS, REST APIs

- Modern web app focused on UX, reusable components, and backend integration.

TECHNICAL SKILLS

Software Development: JavaScript, TypeScript, Python, C# (.NET), Node.js, React, Angular

AI Applied to Development: Cursor, ChatGPT, Claude, GitHub Copilot - daily AI-assisted workflows

Automation: Bash scripting, CI/CD pipelines, Azure DevOps, process automation

Architecture: REST APIs, microservices, scalable web platforms, clean code

Databases: PostgreSQL, SQL Server, MongoDB, SQL

Quality: Code reviews, automated testing, debugging, documentation, Git

Collaboration: Product design discussions, Scrum, remote distributed teams

EDUCATION

Software Development Technology - Universidad UTE

Mechatronics Engineering - Universidad UTE

CERTIFICATIONS

- JavaScript - 180 hours (Intermediate Level)
- React - 80 hours (Develop Junior)
- Advanced Git - 40 hours
- Ethical Hacking - 40 hours

LANGUAGES

Spanish: Native | **English:** Intermediate (professional reading and technical writing)
