

JOSELYN SAAVEDRA

Software Engineer | Node.js | Python | React | TypeScript | AI-Assisted Development

Quito, Ecuador (LATAM) | Full-time Remote | github.com/Witch19

+593 99 252 3644 | Josyts.js@gmail.com | linkedin.com/in/joselyn-saavedra-dev

PROFESSIONAL SUMMARY

Software Engineer based in Latin America with 2+ years of professional experience delivering end-to-end web applications for enterprise and fintech clients. Proficient in **Node.js**, **Python**, **TypeScript**, **JavaScript**, **React**, and **.NET**. Experienced building scalable services, integrating REST APIs, and maintaining high code quality in fast-paced remote environments. Daily user of **LLMs and AI tools** (Cursor, ChatGPT, Claude, GitHub Copilot) to optimize development workflows. Adaptable across stacks, ownership-oriented, and collaborative with international teams. Cloud exposure through **Azure DevOps** and CI/CD; foundational knowledge of AWS concepts.

PROFESSIONAL EXPERIENCE

Vidortec / Vigatec Chile - Software Engineer

October 2023 - Present | Remote (Ecuador / Chile)

- Own end-to-end feature delivery using **Node.js**, **TypeScript**, **JavaScript**, and **.NET** for enterprise clients.
- Design and integrate scalable REST services; resolve blockers independently in testing and production environments.
- Maintain high standards of code quality through reviews, debugging, and automated testing (Karate, k6).
- Leverage **AI tools** (Cursor, ChatGPT, Claude) daily to accelerate coding, documentation, and troubleshooting.
- Manage deployments and pipelines with **Git**, **GitHub**, and **Azure DevOps CI/CD**.
- Work with SQL/NoSQL databases (PostgreSQL, SQL Server, MongoDB).
- Collaborate remotely with distributed teams; communicate progress and technical decisions clearly.

Advance Latam - Software Engineer (Frontend)

June 2023 - August 2023 | Ecuador

- Built web applications with **Angular**, **TypeScript**, and JavaScript.
- Integrated frontend with backend APIs; fixed defects and improved UX.
- Participated in agile delivery using Scrum and Jira.

SELECTED PROJECTS (GitHub)

Pet Adoption UI - github.com/Witch19/pet-adoption-ui

React, TypeScript, Tailwind CSS, Vite, REST APIs, JWT

- Modern React application with reusable components, auth, and API integration.

Backend Urbanizacion - github.com/Witch19/backendUrbanizacion

Python, Django, DRF, PostgreSQL, JWT

- Scalable REST API with authentication, data modeling, and documentation.

Fruit Store eCommerce - github.com/Witch19/tienda_bnk

Angular, .NET 8, microservices, REST APIs

- Full-stack eCommerce platform with microservices architecture.

Billing UI - github.com/Witch19/billing-ui

React, TypeScript, Tailwind, Axios

- Clean billing interface consuming backend APIs.

TECHNICAL SKILLS

Languages / Frameworks: Node.js, Python, TypeScript, JavaScript, React, Angular, .NET, NestJS

Preferred stack: React (experience); Next.js (basic); Python / Node.js services

Cloud / Infra: Azure DevOps, CI/CD; AWS (foundational knowledge); Docker (basic)

Data: PostgreSQL, SQL Server, MongoDB, SQL, REST APIs

AI / LLMs: Cursor, ChatGPT, Claude, GitHub Copilot - workflow optimization

Engineering: Software design principles, clean code, debugging, ownership mindset

Collaboration: Remote international teams, Scrum, proactive communication

EDUCATION

Software Development Technology - Universidad UTE

Mechatronics Engineering - Universidad UTE

CERTIFICATIONS

- JavaScript - 180 hours (Intermediate Level)
- React - 80 hours (Develop Junior)
- Advanced Git - 40 hours

LANGUAGES

Spanish: Native | **English:** Intermediate - B1/B2 (professional reading & writing; actively improving spoken fluency)
