

JOSELYN SAAVEDRA

Front-End Developer | Angular | TypeScript | HTML/CSS | REST | Azure DevOps

Quito, Ecuador | Remote / virtual-first | github.com/Witch19

+593 99 252 3644 | Josyts.js@gmail.com | linkedin.com/in/joselyn-saavedra-dev

PROFESSIONAL SUMMARY

Front-end developer with 2+ years building responsive web applications using **Angular**, **TypeScript**, **JavaScript (ES6+)**, **HTML5**, and **CSS3**. Experience creating reusable UI components, integrating **RESTful APIs**, and collaborating with backend and product teams in remote environments. Strong with **Git**, Agile practices, code reviews, and **CI/CD** via **Azure DevOps / Azure Pipelines**. Also proficient in React (Context API) for state patterns. Motivated to deepen Azure App Services, Azure AD / Entra ID authentication, and performance optimization within a global engineering culture.

PROFESSIONAL EXPERIENCE

Vidortec / Vigatec Chile - Full-Stack Developer (Front-End focus)

October 2023 - Present | Remote (Ecuador / Chile)

- Develop and maintain responsive UIs with **Angular**, **TypeScript**, **JavaScript**, **HTML5**, and **CSS3**.
- Build reusable components; integrate frontends with **REST APIs** and corporate backend services.
- Collaborate with backend, DevOps, and functional teams; participate in Agile ceremonies and code reviews.
- Optimize UI behavior and fix cross-browser / responsiveness issues in test and production.
- Version control with **Git**; CI/CD pipelines in **Azure DevOps** (Azure Pipelines).
- Work with authentication flows (JWT) and role-aware UI behavior in enterprise applications.

Advance Latam - Frontend Developer

June 2023 - August 2023 | Ecuador

- Built web interfaces with **Angular**, **TypeScript**, **HTML**, and **CSS**; REST API integration.
- Corrective UI maintenance; Agile delivery with Jira.

SELECTED PROJECTS (GitHub)

Tienda de Frutas - github.com/Witch19/tienda_bnk

Angular, TypeScript, .NET APIs, responsive UI

- Angular frontend with reusable components and REST integration in a full-stack app.

Pet Adoption UI / Billing UI - github.com/Witch19

React, TypeScript, Context/state patterns, REST, JWT

- Modern UI work demonstrating component design and client-side state management.

TECHNICAL SKILLS

Required: Angular, JavaScript (ES6+), TypeScript, HTML5, CSS3, REST API integration, Git

State / UI: Angular services & reactive patterns; React Context API; Redux (learning / transferable concepts)

Preferred / Azure: Azure DevOps, Azure Pipelines; Azure App Service / Static Web Apps and Azure AD / Entra ID (active learning)

Also: CI/CD, Agile/Scrum, code reviews, performance & responsiveness; Next.js / Docker (basic / learning)

EDUCATION

Technology Degree in Software Development - Universidad UTE

Mechatronics Engineering studies - Universidad UTE

LANGUAGES

Spanish: Native | **English:** Intermediate
